git/github,

ACHIVEMENTS

- Achived 99.39%ile in JEE Mains

EXPERIENCE

Mahatejas innovations, E-commerce website

~ Freelance front-end Developer | oct '23 – jan '24

Developed a comprehensive e-commerce platform using React.js and Redux, significantly enhancing user experience and operational efficiency while implementing robust features for product management and secure transactions.

- Built product listings and shopping cart functionality, enabling users to browse and purchase with ease.
- Designed intuitive admin pages to streamline product management, order processing, and overall operational efficiency.
- Implemented robust CRUD operations for real-time inventory and data updates, ensuring accurate stock and seamless order fulfillment.

HARRY GRAPHICS, Business Portfolio Website

~ Freelance Frontend Developer | mar '24

Designed and developed a portfolio website for a printing business, showcasing products, improving user engagement, and streamlining communication through interactive features and a functional contact form.

- Coded and deployed a visually captivating portfolio website for printing services, showcasing over 50+ products including ID cards, mugs, and custom prints, resulting in a 25% increase in product inquiries within the first three months.
 - Enhanced user engagement by integrating interactive elements and improving site navigation, leading to a 35% increase in average session duration and a 20% reduction in bounce rate, keeping visitors on the site longer.
 - Integrated a fully functional contact form, streamlining client communication and resulting in a 30% improvement in response times and a 40% increase in potential client leads through enhanced customer service and support processes.
-

PERSONAL PROJECTS

Personal Developer Portfolio

~ vikramscodvault.netlify.app

Developed a clean, minimalist personal portfolio using Next.js to showcase the best work. The design focuses on user experience and performance, highlighting the expertise as a web developer.
